Different Types of Ground Level Components Shown

TOTAL SURFACING AREA
REQUIRED 1710 SQ. FT,
156 LINEAR FEET

It is the manufacturer's opinion that the structure shown here complies with current ada standards concerning accessibility if used with proper accessible surfacing and together with other necessary ground level play equipment.

IMPORTANT: Never install play equipment over hard, unresilient surfaces such as asphalt, concrete, or compacted earth. It is the owner's responsibility to ensure the "minimum area required" contains an appropriate amount of resilient material to cushion accidental falls.
